# DEEP STATE TAKEDOWN NEWS

Over time, the now seventeen U.S. intelligence agencies and other bodies of institutional governance in the United States have become a form of subversive secretive government unto themselves, accountable to no one. It is called by many the DEEP STATE, or the Shadow Government, and it is a virulent cancer on the United States and the world. The darkness behind this cabal of secret agencies is now being exposed to the light precisely at this point in time.

Hillary Clinton used the DEEP STATE to fabricate the Russia collusion narrative. We've known for decades that the Clintons and their henchmen are corrupt. But the latest indictment filed by special counsel John Durham exposes a breadth and depravity of corruption that is disgraceful and dangerous even for them. The House Intelligence Committee finally released thousands of pages of declassified transcripts showing that not a single FBI or intelligence official could offer a shred of evidence that Donald Trump's 2016 presidential campaign colluded with the Russian government. This is just one major example of members of the DEEP STATE cabal saying one thing behind closed doors while making wild contrary claims in public against the president.

President Trump's pardon of General Michael Flynn the day before Thanksgiving was a welcome start. But President Trump shouldn't just pardon those who took personal risks by associating with him. Julian Assange has done everything that journalists are supposed to do, and everything which America's fake press has abandoned in favor of left-wing activism. Assange has revealed the secrets of the powerful and how they really operate. He exposed the lies of officials like James Clapper. He embarrassed Hillary Clinton and the wider Democratic party by releasing emails that revealed the party's internal corruption.

Information asymmetry is key to the DEEP STATE'S control over the American population. Elite bureaucrats hoard it, claiming that hidden information justifies their ever-escalating power and their attacks on those who disagree with them. The entire Russia hoax was built on this bogus foundation, with all-powerful "intelligence agencies" suggesting through selective press leaks that they possessed tremendous evidence of Trump colluding with Russia to swing the 2016 election. There will soon be a sweeping away of the accumulated corruption at the tops of the State Department, the FBI, the CIA, and other entrenched bureaucracies. The focus in every instance will be towards removing anyone who has drunk from the D.C. swamp watering hole for too long.

# ***The New US Republic via a Global Currency Reset***

The Global Currency Reset is a complicated process about a global reset of currencies, removal of the Rothschild Khazarian mafia and restoration of the US Republic and the original US Constitution. At the present time, the process is playing out with no holds and is expected to be completed within very soon. If you currently have a Bank Account in the world...your details are already in the Quantum System and your funds are to be transferred onto the Quantum System... Every single person that has a bank account anywhere in the world in any country is already on the Quantum System...The Quantum System is a digital system...a blockchain system... but there will still be physical currency as in the U.S. Note and the U.S. Coin. GESARA is designed to benefit all the world population as well as earth. Finally, we'll be financially liberated, be free and experience abundance. The standard definition would be a return to a global monetary system that all countries would agree to. The last time the countries came together to agree on a new global monetary system was in Bretton Woods, New Hampshire.

**“...for strong is the Lord God  
who judges her.” Rev.18:8**

Many are going in circles propagandizing for their very lives! They have been weighed in the balance and are found to be contaminated. Remember when Biden boasted that he had already sent more than \$600 million worth of military aid to Ukraine and when congress announced plans to send another \$600 million. This is what Biden is doing while leaving our borders open, pushing toxic jobs and mandates. He is waiting to do crazy things here in the States just like they have done in other foreign nations, creating and fueling red revolutions to topple them. This brings us back to the Ukraine, wherein they had coveted their neighbors goods and implemented the master plan to topple a legal election and change the regime, placing their puppet into office in order to continue their evil work within that nation. We have now discovered and witnessed that this includes bioweapon laboratories.
