Crimes against humanity

Retired US Lieutenant General Thomas McInerney says US special forces loyal to President Trump did in fact raid a CIA facility in Frankfurt Germany and seize a Dominion Voting System server farm in November, despite denials by Snopes and other establishment "fact checkers". Hundreds of thousands of Americans learned that Dominion Voting Systems has connections to Venezuela, George Soros, and the Clintons. The source of these revelations is hilarious because they were attempting to debunk claims about questionable ties to criminal enterprises both foreign and domestic. It was CNN. Their intention was to keep the voter fraud company in the shadows, but instead they exposed them even further. To CNN's credit, they did acknowledge that there are ties between all of these organizations and people, albeit wording it all in a way that makes it sound completely legit. "Nothing to see here" is the vibe they unsuccessfully attempted to portray. Dominion is connected to Venezuela. We should all thank CNN for verifying Dominion Voting System's connections to George Soros, the Clinton Foundation, and Venezuela during their clumsy attempt to debunk it all.
