

DEEP STATE

DESTROYER SERIES—VOLUME 49

“DEEP STATE” has a hand in contaminating our food supply. Food terrorism is defined as “the deliberate (or threat of) contamination of food with hazardous agents (biological, chemical, physical, or radionuclear) for the purpose of causing injury or death.”

United States Department of Agriculture
Food Safety and Inspection Service

Intentional Contamination

- January 2003 – Michigan supermarket employee intentionally contaminated 200 pounds of ground beef with a nicotine-based pesticide
- 92 individuals reported becoming ill after consuming the ground beef

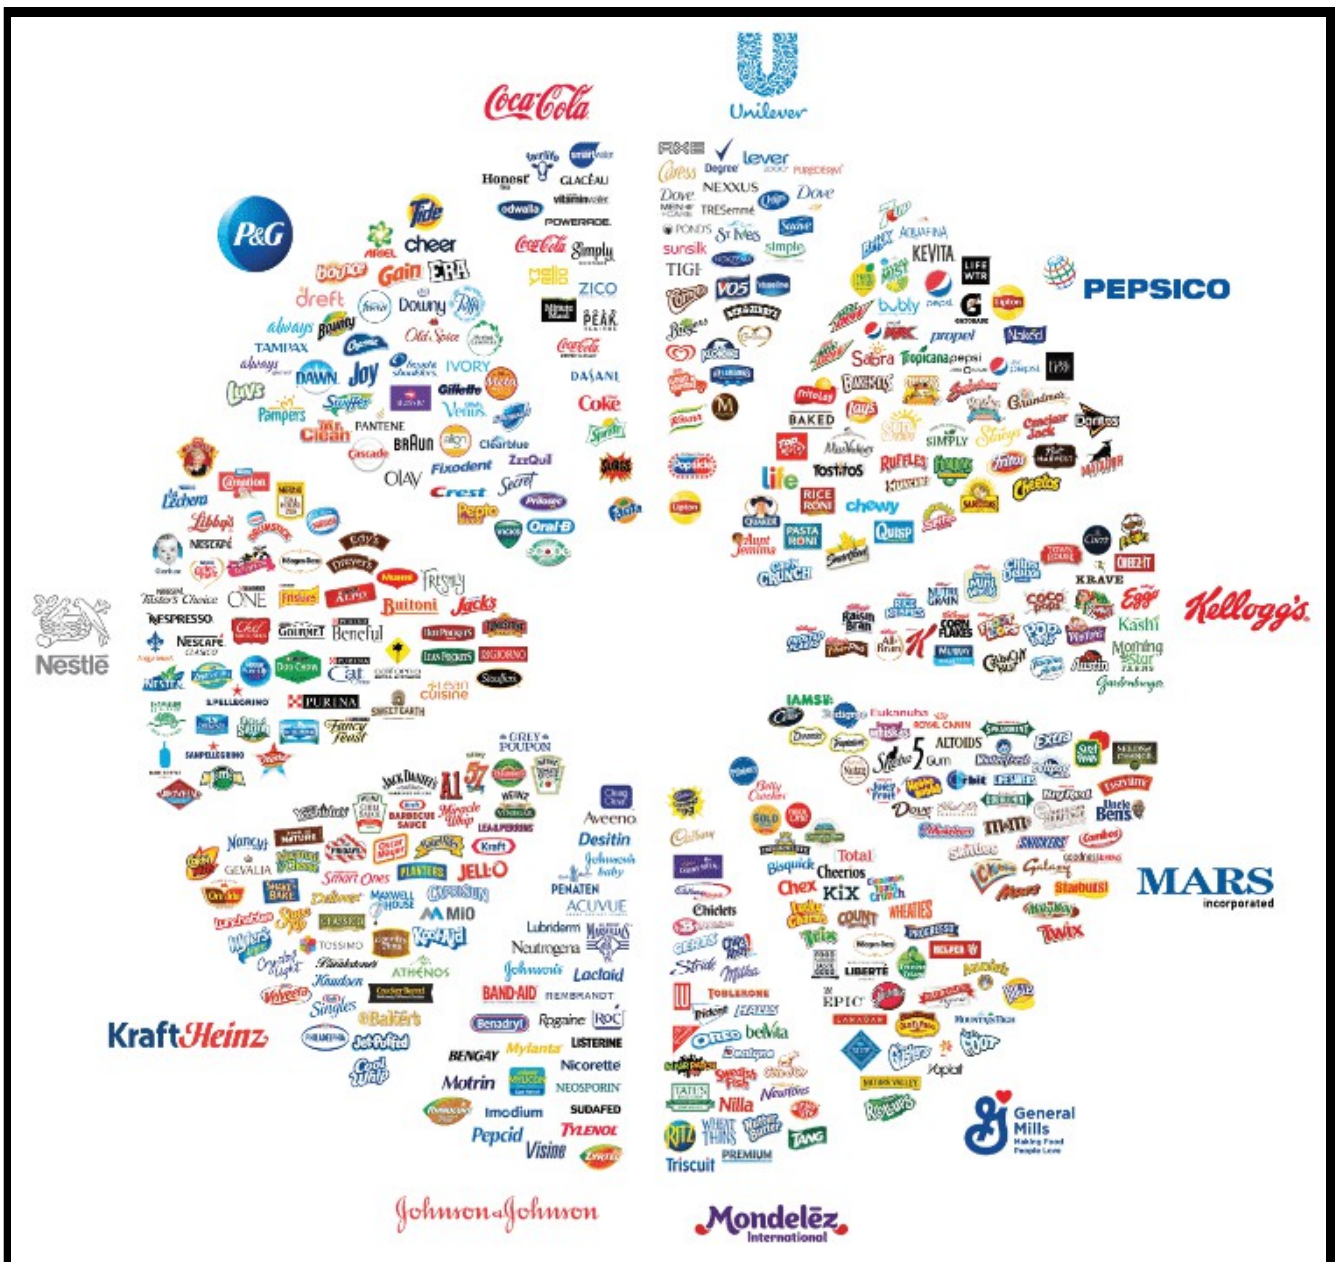

CEREAL KILLER

GENERAL MILLS KID'S CEREALS CONTAIN A TOXIC INGREDIENT KNOWN AS "TRISODIUM PHOSPHATE." IT IS A HEAVY-DUTY CLEANING AGENT, DEGREASER AND LUBRICANT. SMALL AMOUNTS CONSUMED IN THE BODY IS KNOWN TO CAUSE KIDNEY DISEASE, PREMATURE AGING, BREATHING DIFFICULTIES, COUGHING AND HEART ISSUES.

Nine out of the top ten most dangerous compounds on Earth are naturally occurring. Natural does not mean safe. All foods contain pesticides, and 99.99% of the pesticides you are exposed to are all natural. These natural pesticides can be equally carcinogenic using the same criteria to judge their synthetic equivalents that the average consumer has learned to demonize. Only a handful of the world's most toxic major insecticides are significantly more toxic than caffeine. There are verified reports in the scientific literature of negative impacts on human health owing to the consumption of pesticide residues in food. Monsanto is not our friend.

Roughly 80 percent of all the packaged foods sold within the United States contain chemicals outlawed in other parts of the world. Six common food additives found in an estimated 8-out-of-10 products sold in American stores are banned outside of the US putting millions of Americans at risk of consuming chemicals considered too dangerous for humans in other countries. Grocery shop items including best-selling soft-drinks and cereal sold in the US contain additives such as brominated vegetable oil, olestra and others that have been banned in the European Union and elsewhere.

DID YOU KNOW? MONSANTO

Is the creator of **saccharine, aspartame, PCBS, DDT, Agent Orange, bovine growth hormone & glyphosate**, which have all been linked to cancer and other health problems.

Natural News

The Dangers in Our Food Supply Are Worse Than You Think

The 2011 listeria outbreak was not an isolated case. The United States is experiencing what amounts to an epidemic of food-borne illnesses. According to the CDC, there are about 48 million cases of food poisoning a year, leading to more than 128,000 hospitalizations and more than 3,000 deaths. E. coli in spinach and fruit juice, salmonella in eggs and jalapeño peppers, listeria in cheese and bagged lettuce: The toll from food-borne bacteria is mind-numbing.

Frito-Lay jalapeno potato chips recalled over Salmonella

There are more than 250 foodborne diseases. Most of them are infections caused by a variety of bacteria, viruses, and parasites. Harmful toxins and chemicals are what contaminate foods and cause foodborne illness. CDC estimates that each year 48 million people get sick from a foodborne illness.

BIDEN WILL POISON UNITED STATES FOOD SUPPLY

FDA, Big Pharma, Monsanto,
USDA, CDC, AMA, EPA... are
systematically poisoning us.

It's called
POPULATION CONTROL!

PLEASE WAKE UP PEOPLE!

Cancer is a multi-billion-dollar business. Many are being shuffled between combative pharmaceutical companies and competing cancer camps. In 2021, oncology spent around 187 billion U.S. dollars worldwide.

For those with cancer in their lives, the task at hand is to find and recruit the cancer experts that can reliably assist them in their mission to be healed and possibly cured; and the urgency of their quest doesn't often permit a methodical search. When you are newly diagnosed with cancer, days matter. Chemotherapy and radiation are not the answer. Naturopathic Science has been deliberately hidden so that the medical and pharmaceutical industries can get rich and keep people sick. The Rockefeller family undermined modern society in countless ways, but what most do not realize is just how much they wiped out natural cures. The family name has now been linked to the suppression of natural medicine to found big pharmaceutical companies and make big money.

The **PNC-27 protein** induces cancer cell death, specifically to fast growing and dividing cells. It is completely **non-toxic**. It was discovered in 2006 and there's been a decade of valid scientific research to back it up.

Are you surprised you've never heard about it?

WAKE UP

Whether you realize it or not—whether you believe it or not—we are living in the final few moments of this age. And the fact that you are reading this is evidence that God is reaching out to you, to wake you up.
