CAUTION RUMBLE LOSE DEFINITION BOOM UNCLEAR MUDDY HONKY NASAL GRITTY LISTENERFATIGUE SIBILANCE HISS
 This audio frequency spectrum spans from 20Hz to 20,000 Hz and is selectively divided into seven different frequency bands—each having a distinctly different impact on the final sound and feel.

SUB BASS 20 to 60 Hz
 The sub bass range from 20-60 Hz is used to enable the lowest frequency sound to be heard and heard through deep and low pitch sounds. The deep low frequency sound is often felt vibrating through the body with a sense of heat and muscle vibration. Only the bass guitar, tuba, bass trombone and bass are able to reach this frequency. The sub bass is especially significant in the genres of Dubstep & Hip hop and serves as the backbone for most music.

BASS 60 to 250 Hz
 The bass range is larger than the sub bass and is normally the most common contribution to human interpretation of bass. Increasing the bass frequencies can make the sound full and heavier, whereas reducing these frequencies will make the sound narrower and lean. In most modern music the range of bass signals between 80-200 Hz are emphasized. The instruments that are capable of producing these tones include the synth bass, trumpet, saxophone, clarinet, guitar, & violin.

LOW MIDS 250 to 500 Hz
 The low midrange is often identified as the bass reinforcement range which includes the low harmonics of instruments. Raising signals around the 300 Hz area builds body in the bass and other low harmonic instruments. However adding too much boost to the 300 Hz area makes high frequency sounds to become dampened and dull.

MIDRANGE 500 Hz to 2 kHz
 Midrange tones are instrumental in creating the overall "feel" of the song. It is most important for the human vocals in this range to perform as the best as possible. Boosting at the 1000 Hz range can make instruments to sound of a more like wood. If boosting in this range, it is recommended to use precautions especially on the human vocals, because the ear is most sensitive to human voice.

UPPER MIDS 2 to 4 kHz
 The high midrange frequencies are the most sensitive to human hearing. It is accountable for the attack on percussive and rhythmic instruments especially if boosted. Human vocals are most prominent in this range as well as the midrange, so it is encouraged to take precautions when boosting. Excessive boosting in this range will lead to listener fatigue and loss of clarity.

PRESENCE 4 to 6 kHz
 The presence range is responsible for creating the clarity and body of the sound. The range is important for the attack on percussive and rhythmic instruments. It is most sensitive to human hearing. Boosting in this range will lead to listener fatigue and loss of clarity. It is recommended to use precautions when boosting.

HIGH 6 to 20 kHz
 The highest range is responsible for creating the sparkle and shimmer in the sound. It is most sensitive to human hearing. Boosting in this range will lead to listener fatigue and loss of clarity. It is recommended to use precautions when boosting.

FREQUENCY SCIENCE, MUSIC AND TRI-POLAR AXIOMOLOGY

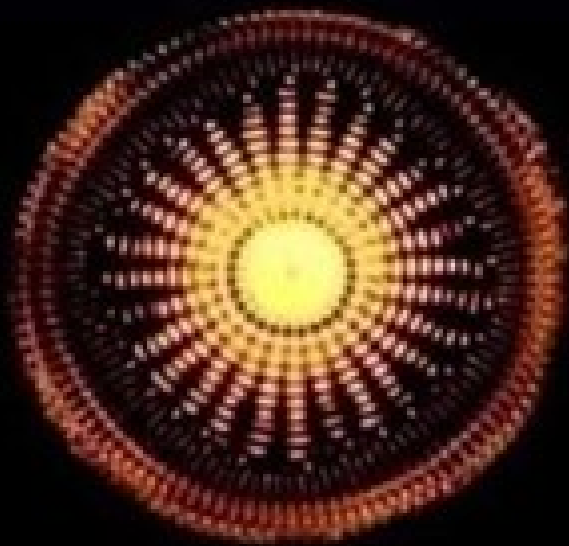

Everything in the known universe is created from frequency. Frequency and sound even created light. Light created photosynthesis and that created life. The way frequencies affect the physical world has been demonstrated through various experiments such as the science of Cymatics and water memory. The science of Cymatics illustrates that when sound frequencies move through a particular medium such as water, air or sand, it directly alters the vibration of matter. Solfeggio Geometry and Cymatics are the sciences of observing the effects of sound and frequency on matter usually in the form of liquid or powder. The term was coined by Swiss scientist Hans Jenny, who used specialized equipment that allowed a viewer to observe shapes formed in a medium under the influence of sound wave frequencies.

An important measurement of sound is the frequency. This is how fast the sound wave is oscillating. This is different than how fast the wave travels through the medium. Frequency is measured in hertz. Sound, Frequency, and Vibrations can reprogram our DNA. One other recent discovery made by scientists was how sound, frequencies, and vibrations have the power to program or reprogram our DNA. We shall explore and examine the science of sound and how harmonic sound and frequency can be used to alleviate anxiety, pain management, depression, PTSD and many chronic illnesses and stress-related diseases. In physics and chemistry, the term frequency is most often applied to waves, including light, sound, and radio. Frequency is the number of times a point on a wave passes a fixed reference point in one second. The period or duration of time of a cycle of a wave is the reciprocal (1 divided by) of frequency.

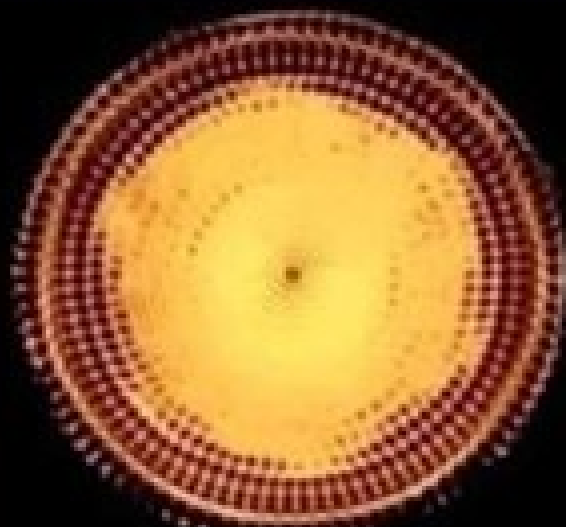

To obtain frequency information using a sound level meter, octave analysis is done with filters. An octave is a doubling of frequency. It gets its name from the musical scale where one octave covers eight notes of the diatonic musical scale. For example, the 1 kHz octave band filter passes the frequencies from 707 to 1414 Hz (centred on 1 kHz). For a sound wave, the frequency corresponds to the perception of the pitch of the sound. The higher the frequency, the higher the perceived pitch.

On average, the frequency range for human hearing is from 20 Hz at the low end to 20,000 Hz at the high end. Allopathic medicine and science have traveled a narrow path built on chemical substances and sharp instruments rather than energy. But the ancients recognized sound, vibration, and frequency as powerful forces that influence life all the way down to the cellular level. Frequency is the scientific measure of pitch. That is, while frequency is objective, pitch is completely subjective. Sound waves themselves do not have pitch; their vibrations can be measured to obtain a frequency, but it takes a human brain to map them to that internal quality of pitch. Sound waves have been part of science and medicine for decades, but the technologies have always relied on low frequencies. Sound is all around us. Everything we hear in our day-to-day lives has a distinctive sound, from the jingling of keys to the tapping of footsteps in a hallway. Sound is created when objects vibrate. These vibrations cause the air around them to vibrate, sending sound waves in various directions. Some objects tend to vibrate at a specific rate. This is known as their resonant frequency.

Usually, frequency is expressed in the hertz unit, named in honour of the 19th-century German physicist Heinrich Rudolf Hertz, one hertz being equal to one cycle per second, abbreviated Hz; one kilohertz (kHz) is 1,000 Hz, and one megahertz (MHz) is 1,000,000 Hz. Sound therapy is a type of therapy that utilizes the vibrational patterns of certain frequencies such as 528 Hz to influence our bodies and minds. It has become an accepted means of healing and calming, and the topic has had a lot of research done on it to reaffirm the capabilities that sound therapy can have. These practices go back all the way to ancient cultures and have been becoming progressively more accepted in modern practice. A sound wave is the movement of particles in a certain way to create the vibrations in the air. So those vibrations are moving the particles in a certain way. Right now, a sound can be increased in power, or in wavelength to create music, but it can also be used to destroy something as you will soon learn. Any sound with a frequency below the audible range of hearing (i.e., less than 20 Hz) is known as an infrasound and any sound with a frequency above the audible range of hearing (i.e., more than 20 000 Hz) is known as an ultrasound.

Did you know?

In 1953 a worldwide agreement was made based on an idea by the Rockefeller Foundation to change the frequency of music. They changed it from it's natural harmonic resonance 432hz to the current consciousness supressing 440hz.

Sound to heal. ...

Third Eye Fact: The Ancients used Sound to heal. In Malta at the the oldest underground temple in the world there is a room called the Oracle Chamber designed to vibrate sound at 111hz which scientist now know kills cancer cells using the power of the 11th harmonic

The solfeggio frequencies are powerful meditation and chakra aligning tools. Each of these frequencies is believed to affect different elements of the spirit and energies. The solfeggio tones only need to be listened to for a few minutes a day for the de-stressing effect to take place. Solfeggio frequencies make up the ancient 6-tone scale thought to have been used in sacred music, including the beautiful and well known Gregorian Chants. The chants and their special tones were believed to impart spiritual blessings when sung in harmony. Each Solfeggio tone is comprised of a frequency required to balance your energy and keep your body, mind and spirit in perfect harmony.

Another classification of food is vibrational frequency – which is a measurement of the electrical energy that is present in all natural living things. Food can help or hinder our health, depending on its vibrational frequency. Food can also assist the body in moving energy effectively and efficiently - provided we eat the right types of foods. Processed and canned foods have a frequency of precisely 0MHz, while fresh vegetables have frequencies in the range 20 - 27MHz, and the really high frequency foods are products like seaweed, wheatgrass, spirulina etc.

Otto Heinrich Warburg, son of physicist Emil Warburg, was a German physiologist, medical doctor, and Nobel laureate. He served as an officer in the elite Uhlans during the First World War, and was awarded the Iron Cross for bravery. He was the sole recipient of the Nobel Prize in Physiology or Medicine in 1931. This was for his discovery of the nature and mode of action of the respiratory enzyme. This discovery opened up new ways in the fields of cellular metabolism and cellular respiration. He discovered that unlike all other cells in the human body, cancer cells do not breathe oxygen. Cancer cells are anaerobic, which means that they derive their energy without needing oxygen. It turns out that cancer cells cannot survive in the presence of high levels of oxygen. In total, he was nominated for the award 47 times over the course of his career.

TRI-POLAR AXIOMOLOGY

MERKABA

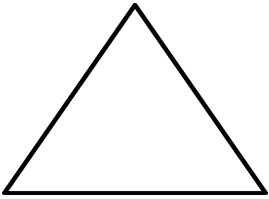

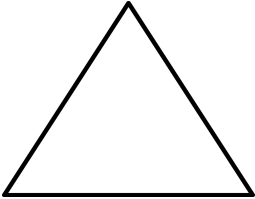

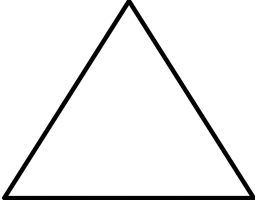

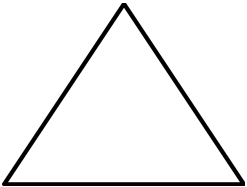

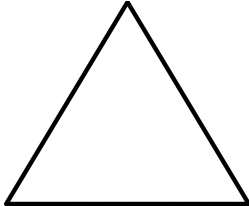

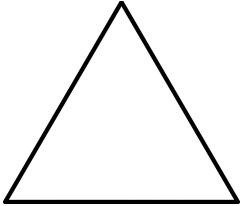

The Merkaba (a Hebrew word meaning light-spirit-body) is the energy sphere in which everything exists. It is the vehicle that carries you to the dimensions of unity and love that exist beyond the mind. The upward and downward interlocked tetrahedrons represent the duality of existence—body and spirit—united in the harmony of a singular form.

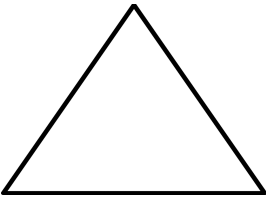

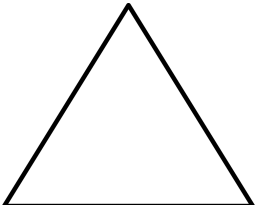

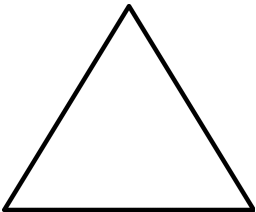

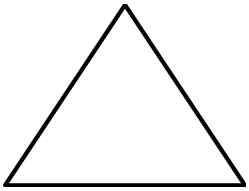

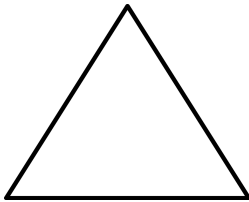

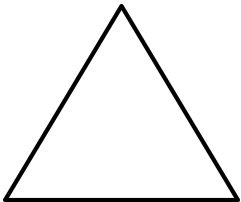

Adapting to the Tri-Polar systemology is the only method of acquiring the supernatural axiomatic abilities and understandings that lay dormant within us. Most beings are currently Bi-Polar and not fully developed in the Tri-Polar consciousness.

Metaphysically, the meaning of cause and effect is the the law of sequence; the **AXIOMS** are the essentials of the universe. This law, like all other divine laws, inheres in every living being. "Whatsoever a man soweth, that shall he also reap" (Galatians 6:7). Man lives in two worlds, the world of cause and the world of effect. The miracle worker must have genuine respect for true cause and effect as a matter of applied ethics.

The simple concept of cause and effect, once explored carefully, leads to certain inbred truths or "sub-laws" that we must understand if we are to gain the best understanding of the universe around us. God's Sub-Laws of Cause and Effect are: 1.) No effect can occur without a cause. 2.) No effect can be its own cause. 3.) Every cause must produce an effect. 4.) Every effect becomes the cause for another effect. 5.) Cause and effect can not happen simultaneously. 6.) The exact same cause will produce the exact same effect. 7.) The more different the causes, the more different the effects. 8.) Seemingly different causes can produce the same effect.

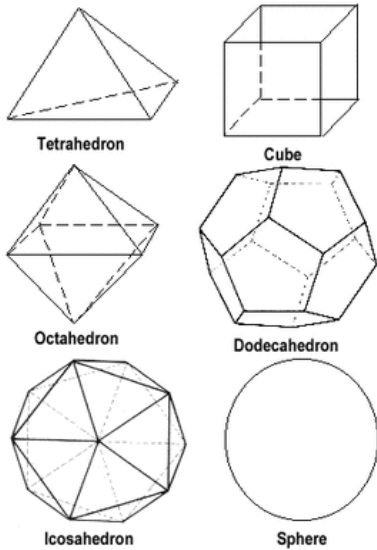

So the road to being supernatural rests within your ability to balance and harmonize the aligning of the **AXIOMS**. The first step to "becoming" multi-dimensional is understanding each **AXIOM** and allowing yourself to simply step into God's power and allow God's love to expand and saturate into your physical existence. Matthew 6:33 states clearly: But seek ye first the kingdom of God, and His righteousness; and all these things shall be added unto you.

God, through specific discipline, makes us a Steward, Student and Scientist over 4 major elements of the Universe. They are MATTER, ENERGY, SPACE and TIME:

It is also God who helps us to remove our unwanted: ATTITUDES, EMOTIONS, SENSATIONS and PAINS:

Five Platonic Solids and the Sphere

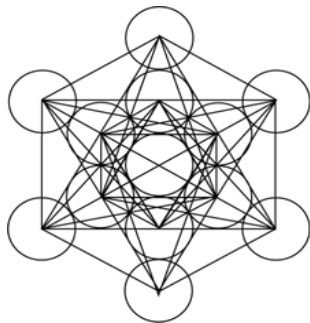

- Tetrahedron (4 faces)
- Cube (6 faces)
- Octahedron (8 faces)
- Dodecahedron (12 faces)
- Icosahedron (20 faces)

Each of these Platonic Solids produces specific energetic effects. The basic form of matter – the four-dimensional world – is the cube. By cutting off all four corners of the cube in a particular way, a tetrahedron is formed, the faces of which are four equilateral triangles (ie a pyramid with three sides plus base).

Star Tetrahedron

By cutting off the remaining four corners of the cube (after forming the tetrahedron) we find that the cube contains not one tetrahedron but two, one within the other, each an exact reflection of the other. These two tetrahedrons – the star tetrahedron (also known as the Merkaba vehicle of light) – represent the innermost law of the physical world: the inseparable relationship between two opposing fields of energy – the positive and negative, the manifest and the unmanifest – which form a unilateral equilibrium. In creation they rule as two opposite laws: the law of spirit and the law of matter. Spirit is life: The law of the spirit is radiation, giving, selflessness. Matter is resistance: The law of matter is drawing inward, cooling off, solidification.

Metatron's Cube

Metatron's Cube contains all the Platonic Solids, including the two tetrahedrons which form the Star Tetrahedron, and each of these shapes fits inside a sphere with its points touching the inside of the sphere.

Here is a simple form of activating your Mer-Ka-Ba. Start by visualizing your body contained within the two Tetrahedrons. The "first" Tetrahedron begins at your knees, pointing upwards and extending a few feet above your head. The "second" Tetrahedron starts at your shoulders, extending down a few feet below the soles of your feet. Next you will visualize the Tetrahedrons spinning around your body. The "first" Tetrahedron moving clockwise (left to right) and the "second" Tetrahedron spinning counterclockwise (right to left). Breathe in and out, seeing the energy intensifying and extending outwards. Focus on love and light and ask God to grant you access to each dimension (**AXIOM**) as you incorporate all 24 individually into the center of the Mer-Ka-Ba. In Dimension 3, ask God to crush Death, Destruction and Deception. These are the weapons used by Satan to annihilate you. Finish by accepting God's will be done. Now come back to regular consciousness. Congratulations!!! You are on your way to transforming your life!

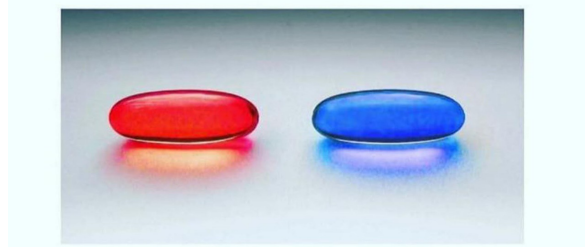

**EVEN THOUGH I
WALK THROUGH THE
VALLEY OF THE
SHADOW OF DEATH,
I WILL FEAR NO EVIL,
FOR YOU ARE WITH ME;
YOUR ROD AND
YOUR STAFF,
THEY COMFORT ME.**

3 types of DEATH: Lack of Knowledge is DEATH (Hosea 4:6), Wages of Sin is DEATH (Romans 6:23), Faith without Works is DEATH (James 2:26).

BALANCING THE AXIOMS

Optimal existence requires that you become totally tri-polar as you metamorphisize and change your condition from the typical bi-polar that most people are locked into. The "new creature" experience requires a strong discipline.

WHICH PILL WOULD YOU TAKE?

The Bible spells it out like this in Matthew 7:13,14: Enter ye in at the strait gate (red pill): for wide is the gate, and broad is the way (blue pill), that leadeth to destruction, and many there be which go in thereat: Because strait is the gate, and narrow is the way, which leadeth unto life, and few there be that find it.

The Devil really doesn't care whether we go his way
or our own way,
as long as we don't go God's way.
~ R.B. Oullette

Enter ye in at the strait gate: for wide is the gate, and broad is the way, that leadeth to destruction, and many there be which go in thereat: Because strait is the gate, and narrow is the way, which leadeth unto life, and few there be that find it. Matthew 7:13-14

The "red pill" is tri-polar and the "blue pill" is bi-polar.

DIMENSION 1

Way-Truth-Life: This is where the journey starts. Learn that Christ is the way, get the truth and live the life.

Existence-Consciousness-Identity: Many people have been taught a wrong existence. Fact is, you are a spirit that possesses a body not the other way around. Your mind is where you store experience. It takes your mind and you as a spirit to bring your flesh under control. Consciousness can expand when you realize that you are not a body. Your identity is clear when you realize your spirit potentials and fill your mind with truth.

Research-Education-Innovation: The Bible says in 2 Timothy 2:15: Study to show yourself approved unto God, a workman that need not to be ashamed, rightly dividing the word of truth. With a well-rounded body of research and education, you can tap into your creative and innovative side.

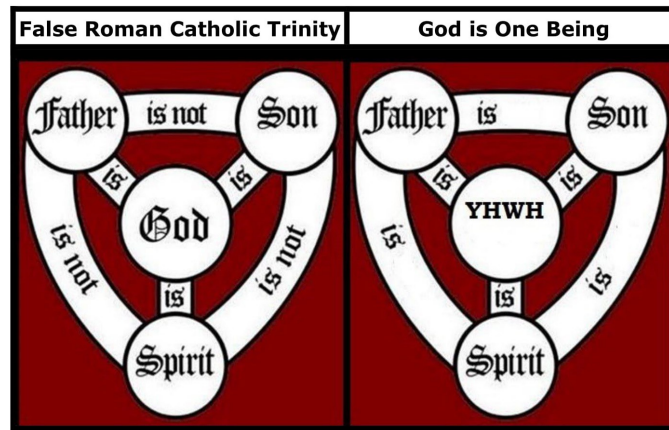

Gospel-Doctrines-Commandments: The gospel is the good news that God provided the way for man to be freed from the penalty of sin (John 14:6; Romans 6:23). Everyone dies physically, but those who believe in Christ are promised a physical resurrection unto eternal life (John 11:23-26). Doctrines are the direct ordinances of the plan of salvation found in Acts 2:38, 39. The 10 Commandments are still in full effect as well as the 10 inalienable rights given to you by the Creator outlined in the Constitution and Bill of Rights.

Human Radiation-Postulate-Growth: Humans naturally emit infra red radiation. The constant motion of molecules embodies heat, and when an electron is excited by colliding with another, it jumps to a higher energy level and falls back again, releasing energy in the form of photons. A postulate is a conclusion, decision or resolution made by the individual himself to resolve a problem or to set a pattern for the future or to nullify a pattern of the past. A postulate infers conditions and actions rather than just plain thinking. Growth requires change. Spiritual growth is the process of becoming more and more like Christ. When we place our faith in Christ, the Holy Spirit begins the process of making us more like Him, conforming us to His image.

Direction-Choices-Expectations: Direction comes from the Holy Spirit. There are only 2 Choices which involve being good or evil, right or wrong. Expectations are the end result of reaping what you sow.

DIMENSION 2

Father-Son-Holy Spirit: 1 John 5:7: For there are three that bear record in heaven, the Father, the Word, and the Holy Ghost: and these three are one.

Physical-Mental-Spiritual: There must be a balance of 3 distinct characteristics within a person. An unbalanced bi-polar/"blue pill" person is perceived as a 90% carnal flesh individual operating with a contaminated/brainwashed mind only functional at 10%. When they are awakened into their tri-polar/"red pill" status, they become the "new creature" on a path to supernatural power. Mind and Spirit over flesh.

Knowledge-Responsibility-Control: An individual is unable to control anything that they have lack of knowledge of or are not willing to take responsibility for. Lack of Knowledge, Irresponsibility and being Out-Of-Control is the direct opposite and destroys things. There is Physical Knowledge, Mental Knowledge and Spiritual Knowledge. There is Physical Responsibility, Mental Responsibility and Spiritual Responsibility. There is Physical Control, Mental Control and Spiritual Control.

Affinity-Reality-Communication: Affinity is an amount of love or liking. Reality is what 2 people can agree upon as being real. Communication is the exchange and expression of thoughts and ideas. Love (Affinity) falls out the bottom when people disagree or are unwilling to talk to one another.

Thoughts-Words-Deeds: Everything begins with a thought. Then the thoughts are spoken into existence in the form of words. Then the person takes action in the form of deeds based on what they thought and spoke. Thoughts and Words are what form faith. Works accompany thoughts and words as the stage 3 manifestation. Thus, faith without works is dead (James 2:26).

Health-Wealth-Wisdom: Wisdom is said to come from the proper application and stewardship of health and wealth. There is Physical Health, Mental Health and Spiritual Health. There is Physical Wealth, Mental Wealth and Spiritual Wealth. There is Physical Wisdom, Mental Wisdom and Spiritual Wisdom. The opposite is bad Health, bad Wealth and bad Wisdom.

DIMENSION 3

Signs-Miracles-Wonders: Wonders are similar to signs, but have a different emphasis. "A sign appeals to the understanding; a wonder appeals to the imagination". A 'Sign' emphasizes what the miracle proves and a 'wonder' emphasizes how the miracle inspires worship. A miracle is an extraordinary event of natural or Divine occurrence which exceeds known human capabilities, understandings and powers. A sign may be an object or something happening to signify something (e.g. planetary orbits, solar eclipses, and stars - Genesis 1:14). A sign may also be a divine intervention by God to perform a miracle (e.g. Jesus turning water into wine, John 2:11) such as a sign of Divine authority. A wonder is something which causes people to marvel, be astounded or even terrified. A wonder is a special manifestation of God's power (Exodus 7:3).

Steward-Student-Servant: Stewardship and economics are closely related concepts, and in fact, to a New Testament Christian, there was no distinction between them. A steward in the ancient world was a person who was given the responsibility and authority to rule over the affairs of the household. A student is one who is absorbing elementary rudiments and discipleship in order to eventually lead others. People are servants of other human beings or servants of God. In the Old Testament, the Hebrew word for servant is ebed. It contains at least two key ingredients: action (the servant as "worker") and accomplishment through obedience. We must have a balance of all three within our character.

Death-Destruction-Deception: These are Satan's top 3 means of taking out the child of God. There is Physical Death, Mental Death and Spiritual Death. There is Physical Destruction, Mental Destruction and Spiritual Destruction. There is Physical Deception, Mental Deception and Spiritual Deception. The opposite is Life, Construction and true Discernment.

Past-Present-Future: These are 3 aspects of time that have a tendency of clouding our thoughts. The object is to be in present time while implementing knowledge and wisdom from the past through experience. Tomorrow is never promised, so we give God the praise for what He has already done and what He is about to do in this immediate moment.

Start-Change-Stop: These 3 things are the anatomy of control. If you can't start or stop something then it is out of control. Change is like the gearing mechanism...you have to know when to be in 1st gear or 5th gear. The inability of knowing when to shift could damage the transmission.

Proteins-Vitamins-Minerals: 95 out 100 people on the planet have a deficiency in the RDA of these nutrients. The effects of poor diet on sleeping patterns, energy and mood all indirectly affect day to day functioning of the brain at work or school. Cognition is also indirectly affected by the development of other brain functions, for example nutrition is essential for the development of the sensory systems such as hearing and vision.

DIMENSION 4

Religion-Politics-Economics: These 3 things are what is identified as the core of the New World Order. Global elites wanting to enslave every man woman and child through One World Religion, One World Government and One World Banking System.

Solids-Liquids-Gases: The three states of matter can be easily represented by their particle forms. The forms reveal the properties of substances in their different states, as well as changes of state. Solids have a fixed shape and cannot flow, because their particles cannot move from place to place cannot be compressed (squashed), because their particles are close together and have no space to move into. Liquids flow and take the shape of their container, because their particles can move around each other cannot be compressed, because their particles are close together and have no space to move into. Gases flow and completely fill their container, because their particles can move quickly in all directions can be compressed, because their particles are far apart and have space to move into.

Elements-Atoms-Molecules: Both atoms and molecules are incredibly tiny particles that form the building blocks of various substances. You cannot alter an atom or molecule without altering the identity of the substance. Atoms are the building blocks of everything you see around: the screen you are looking at, your study table, your books, etc. Such is the amazing power of nature and fundamental nature of these particles. Despite the discovery of sub-particles like electrons, protons and neutrons, an atom continues to remain the fundamental particle because of the fact that it is the smallest unit humans can calculate and model that exhibits the chemical properties of an element. Chemistry is essentially the study of matter and the changes it undergoes in everyday activities like cooking to more complex processes such as photosynthesis. In essence, the heart of chemistry involves studying changes around our world.

Protons-Neutrons-Electrons: Even though electrons, protons, and neutrons are all types of subatomic particles, they are not all the same size. When you compare the masses of electrons, protons, and neutrons, what you find is that electrons have an extremely small mass, compared to either protons or neutrons. Protons have the mass of 1,836 electrons. Neutrons have the mass of 1,839 electrons.

Belief-Actions-Confidence: All pursuits begin with a belief. In business, all actions are coordinated by way of organization, execution and management (OEM). Confidence comes when a standard operating procedure (SOP) is manifested. Success comes when you can keep up with the projected cost analysis (PCA) and budget associated with supply and demand.

Slow-Medium-Fast: This is the epitome of crawl, walk and run. Another factor is being able to gauge energy flow. We all know haste makes waste. The race is not to swift, but to he that endures to the end. Synchronization comes with being in tune with your immediate surroundings. We are taught to go with the flow. Everyone has a different metabolism and heart rate.

MATTER, ENERGY, SPACE and TIME

The object of survival is to have dominion over MATTER, ENERGY, SPACE and TIME. Satan is in pursuit of keeping us addicted to material things, keep us wasting energy, keep us cluttering our space and frivolously burning up our time in disorganization. Survival is a science. It requires discipline, which is the base description of a disciple.

ATTITUDES, EMOTIONS, SENSATIONS and PAINS

For the tri-polar person there are physical attitudes, physical emotions, physical sensations and physical pains. There are mental attitudes, mental emotions, mental sensations and mental pains. There are spiritual attitudes, spiritual emotions, spiritual sensations and spiritual pains.

ENERGY FLOWS

Satan is a wizard in dialing in your weakest and most vulnerable attributes from which to derail you. It centers around 4 areas of energy flow. 1. What you do to others. 2. What others do to you 3. What you observe others doing to others. 4. Things you bring upon yourself.

GOD'S REQUIREMENTS

God always itemizes things so that you can get a full handle on what he requires. Especially our lifestyles.

FRUIT OF THE SPIRIT

SHALL NOT INHERIT THE KINGDOM

1 Corinthians 6:9-10: Know ye not that the unrighteous **shall not inherit the kingdom of God**? Be not deceived: neither fornicators, nor idolaters, nor adulterers, nor effeminate, nor abusers of themselves with mankind, Nor thieves, nor covetous, nor drunkards, nor revilers, nor extortioners, **shall inherit the kingdom of God.**

Galatians 5:19-21: Now the works of the flesh are manifest, which are these; Adultery, fornication, uncleanness, lasciviousness, Idolatry, witchcraft, hatred, variance, emulations, wrath, strife, seditions, heresies, Envyings, murders, drunkenness, revellings, and such like: of the which I tell you before, as I have also told you in time past, that they which do such things **shall not inherit the kingdom of God.**

NOT AFTER CHRIST

Colossians 2:8: Beware lest any man spoil you through philosophy and vain deceit, after the tradition of men, after the rudiments of the world, and not after Christ.

GOD HATES 7 THINGS

Proverbs 6:16-19: These six things doth the Lord hate: yea, seven are an abomination unto him: A proud look, a lying tongue, and hands that shed innocent blood, An heart that deviseth wicked imaginations, feet that be swift in running to mischief, A false witness that speaketh lies, and he that soweth discord among brethren.

GOD'S PROMISES

Isaiah 54:17: No weapon that is formed against thee shall prosper; and every tongue that shall rise against thee in judgment thou shalt condemn. This is the heritage of the servants of the Lord, and their righteousness is of me, saith the Lord.

Romans 8:37: Nay, in all these things we are more than conquerors through him that loved us.

Matthew 6:33: But seek ye first the kingdom of God, and his righteousness; and all these things shall be added unto you.

THE PROVISIONS OF YOUR ARMOR

Ephesians 6:12-18: For we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places. Wherefore take unto you the whole armour of God, that ye may be able to withstand in the evil day, and having done all, to stand. Stand therefore, having your loins girt about with truth, and having on the breastplate of righteousness; And your feet shod with the preparation of the gospel of peace; Above all, taking the shield of faith, wherewith ye shall be able to quench all the fiery darts of the wicked. And take the helmet of salvation, and the sword of the Spirit, which is the word of God: Praying always with all prayer and supplication in the Spirit, and watching thereunto with all perseverance and supplication for all saints.
