VANGUARD & BLACKROCK

THIS IS THE CORPORATE SIDE OF THE RULING ELITE. BLACKROCK AND VANGUARD ARE THE LARGEST COMPANIES ON EARTH. THEY ARE THE ONE PUSHING THE WOKE AGENDA ESPECIALLY THROUGH ENTERTAINMENT.

IT IS CALLED THE ESG RATING SYSTEM. ENTERTAINMENT COMPANIES ARE INCENTIVISED THROUGH INVESTMENTS, SPONSORS AND BONUSES BASED ON HOW "INCLUSIVE", "DIVERSE" AND POLITICALLY MESSAGED THEIR PRODUCTS ARE, BE IT MOVIES, TV SHOWS, GAMES, BOOKS, ADS ETC.

THIS IS WHY ALL YOUR FAVOURITE FRANCHISE OF THE PAST ARE NOW WOKE SHADOWS OF THEIR FORMER SELVES.

OWNED BY BLACKROCK

BLACKROCK AND VANGUARD

Two Companies Control 99% of the World's Productive Assets

Two investment firms, BlackRock and Vanguard, own big pharma, big media, and just about everything else you can think of! They have ownership in 1,600 American firms, and control over \$9-trillion in assets. The 1% owns more than the 99%. 82% of all earned money in 2017 went to this 1%, somewhat like a massive company store. Vanguard is the largest shareholder of BlackRock. Vanguard is privately owned, so it is difficult to discern the individual owners, but it is linked to many of the oldest, richest families, including the Rothschilds, the Orsini family, the Bush family, the British Royal family, the DuPont family, the Morgans, Vanderbilts and Rockefellers.

A new world order

We've entered into a new world order. This is, in our view, the most fraught global environment since World War Two – a full break from the post-Cold War era. We see geopolitical cooperation and globalization evolving into a fragmented world with competing blocs. That comes at the cost of economic efficiency. Sourcing more locally may be costlier for firms, and we could also see fresh mismatches in supply and demand as resources are reallocated.

A prime example is the response to Russia's invasion of Ukraine. Western sanctions have triggered a pursuit of economic self-sufficiency. Energy security is now a priority: As Europe weans itself off Russian oil and gas, we've seen energy shortages and higher prices. In the U.S., we see a push to favor trading partners when sourcing the metals and materials needed in the net-zero transition.

Strategic competition between the U.S. and China has intensified. A tough stance toward China has bipartisan support in Washington. The U.S is trying to restrict China's access to high-end technology.

China's recent party congress was a pivotal event, both politically and economically, in our view. China looks set to de-emphasize economic growth as it pursues self-sufficiency in energy, food and technology. We see slower growth compounded by the effects of an aging population over time.

Geopolitical fragmentation is likely to foster a permanent risk premium across asset classes, rather than have only a fleeting effect on markets as in the past. Market attention is likely to stay fixated on geopolitical risks. See the chart.

All this will likely contribute to the new regime of greater macro and market volatility – and persistently higher inflation.

“

We're in a new world order of geopolitical fragmentation, a full break with the post-Cold War era.”
