To create and to annihilate material substances, causing them to aggregate in forms according to his desire, would be the supreme manifestation of the power of Man's mind, his most complete triumph over the physical world.

## ~ Multiplication Map ~

3 multiplies itself through the system as a perfect square. It bounces from position 3, 6, 9, to 12. All multiples of 3 are found in these positions.

4 multiplies itself through the system as an Equilateral Triangle. It bounces between positions 4, 8, and 12. All multiples of 4 bounce in these positions

2 and 10 act as "doublers," alternating between the doubling of prime positions next to them and across. Use the pattern around 2

6 multiplies itself through the system as a straight line. It bounces back and froth between postions 6 and 12.

5 is the first prime position. It functions as a star in some respects bouncing back and forth across teh system counter clockwise

7 is the second prime position. It mirrors the path of 5 teaching each position exactly opposite criss-crossing 5's path clockwise.

## COMPOSITES & PRIMES

A Self Organized System

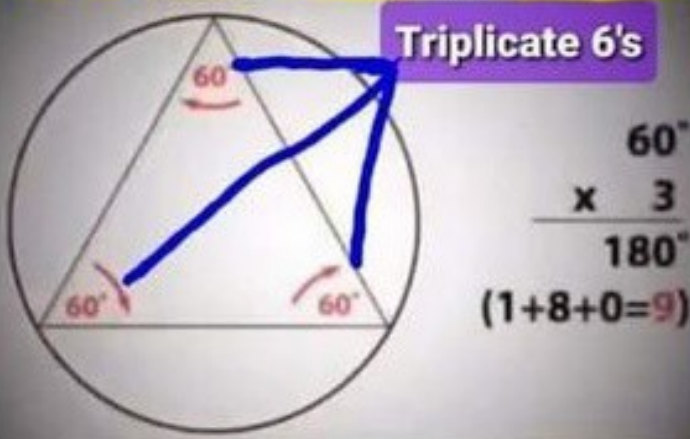

1 or 13 is the top right prime position. It mirrors 11, cascading out to the right and back around the system

11 is the top left prime position. It cascades out to the left and circles back around the system.

Exceptions to the prime postions occur when primes interact with each other. The first exception is (25) to the prime positon is when 5 multiplies by itself, or is squared. The second exception is 5 interacting with 7. All other exceptions are multiples of 5 and 7 or 11 and 13. All squared primes land in position 1. All twin primes on the sides of 6 or 12 add up to be a multiple of 12.

# DID THESE BANKERS DESTROY TESLA TO STOP HIS GIFT OF FREE ENERGY FOR ALL?

JP Morgan and other bankers first pretended to back Tesla, but effectively they were only seeking to control him. When they found out he was planning to give the world FREE ENERGY as a gift, they silenced Tesla using the newspapers they controlled.

Nikola Tesla was ruined by elitists then murdered to stop him from giving free energy to the world. Bankers destroyed him to stop his free energy and the Hitler Assassins murdered him for defecting to the West in 1884. These people can destroy the entire world economy with their shenanigans and there is nobody who will ever investigate. This is why no New York banker ever goes to jail.

## *Nikola Tesla*

demonstrated the wonders of alternating current electricity in Chicago in 1893, which became the standard power in the 20th Century. Tesla designed the first hydroelectric powerplant in Niagara Falls in 1895. The Tesla coil, which he invented in 1891, is widely used today in radio and television sets and other electronic equipment. Among his discoveries are the fluorescent light, laser beam, wireless communications, wireless transmission of electrical energy, remote control & robotics. Tesla is the father of the radio and the modern electrical transmissions systems. Registering over 700 patents worldwide, his vision included exploration of solar energy and the power of the sea. He foresaw interplanetary communications and satellites.

- Invents Electricity, tries to give it to the world free.
- Finds out **someone is using** one of his patents, "Let him **use them**. He is doing **great work**."
- Invents a **Death Ray** that could have **handed world domination** to whoever held it, **Destroys it**.
- Invents everything from **X-rays**, to **Radar**, to **wireless transmissions** and **Electricity**. Doesn't care that he has got **no credit** for it.
- Dies poor and alone **except for the pigeons** who he truly loved, **Forgives everyone's ignorance**.

This Guy literally invented the Modern World way before and still we are not able to figure out how he invented. All he wanted was to make the world better. SALUTE TO THIS MAN!

## **NIKOLA TESLA**

Inventor that created renewable energy and cared more about people than making money.

## **THOMAS EDISON**

Wealthy businessman who created a way to charge money for electricity and methods to control energy resources.

**GUESS WHICH ONE YOUR TEXTBOOKS NEVER TOLD YOU ABOUT.**

While Thomas Edison is known for several inventions (including the light bulb), he was also a very astute businessman who was able to commercialize inventions and turn them into viable businesses. Nikola Tesla was just the opposite -- a prolific inventor who died penniless.

Rife's "secret" was the cancer cure. He used a Tesla tube to create the benefits of his "frequency machine". Nikola Tesla was a Serbian American inventor, electrical engineer, mechanical engineer, and futurist best known for his contributions to the design of the modern alternating current (AC) electricity supply system.

Tesla was a pioneer in many fields. The Tesla coil, which he invented in 1891, is widely used today in radio and television sets and other electronic equipment. His alternating current induction motor is considered one of the ten greatest discoveries of all time. Among his discoveries is the fluorescent light, laser beam, wireless communications, wireless transmission of electrical energy, remote control, robotics, Tesla's turbines and vertical take-off aircraft.

3 6 9

**"If you only knew the magnificence  
of the 3, 6 and 9, then you would  
have a key to the universe."**

**-Nikola Tesla**

Tesla was obsessed with numbers 3, 6 and 9. He understood a fundamental fact, unknown to many, which is the universal language of mathematics; A science discovered by man, not invented by him. These numbers present a mystery, of an unexplained pattern in the universe. It is alleged the great Nikola Tesla did everything in (3) threes. Nikola Tesla had calculated nodal points around the planet, and they were probably linked to the numbers three, six and nine and Tesla claimed that these numbers were extremely important.

### Number 3

### Number 6

The number six is its double three, twice as powerful, but is sublimated by "Universal Duality" or the "Law of Genders," when positive and negative energies are parts of the whole. See the video below for explanation.

### Number 9

The number nine (3x3) is the climax, the jewel of the threes. Its significance is divine, representing both the singularity, the initial point of the whole, the vacuum. Nine represents everything and nothing. Nine represents the "Seed of Life", the symbol of fertility, creation, and serves as the blueprint for the universe and life.

Some say he was insane, others claim he suffered from an Obsessive-Compulsive Disorder (O.C.D.), many others believe that in reality, Tesla was on to something most of us are unaware of? The magic begins with a 3, the base number of Creation.
